

About NABC

The Netherlands-African Business Council (NABC) is the platform for companies doing business in African countries or interest in that direction. More than 200 Dutch companies operating business in Africa are members of the NABC, and that number is increasing rapidly. These are both SMEs and multinationals. NABC's goal for economic relations between Africa and the Netherlands is for all parties to achieve a win-win situation. Not only do we support our members in doing business in Africa, we also point out new opportunities and assist enterprises in African countries with their economic diplomacy to the Netherlands. Working at the NABC you will be right at the centre of the intersection of public policy, diplomacy and the interests of the private sector.

NABC organizes networking events, road shows and investment match-making events (including trade missions), in which Dutch companies can be linked to African businesses.

NABC is a founding member of EBCAM, the European Business Council for Africa and the Mediterranean. At European level, the NABC with EBCAM increases opportunities for members to trade and invest in Africa.

Job description:

The NABC has a small team with a very active board. To join the team, NABC is looking for intern (s) who will contribute to strengthening the NABC network and to carry out market for our members. (Trainees) will work towards trade, investment and private sector development in Africa. We seek a representative and an assertive person with strong, analytical capabilities and a hands-on mentality. In addition, the intern (s) affinity with Africa and believes he / she is promoting the role of the private sector in development. There are plenty of opportunities in research for an internship or graduation, with the co-organizing trade missions, networking events and some administrative work. Thus the NABC wants more insight into the economic relations between the Netherlands and Africa, both sectoral and geographical levels, and better understanding of the individual activities of Dutch companies in Africa. During the work, the students will also work with the different ministries (eg Minbuza, Minez, LNV), chambers of commerce, universities, industry, Ambassadors and African countries.

Requirements of the student (s):

Study, minimum phase: - Economics and Policy, Master 4 years

- Political Science, Master 4 years
- Economics and Business Administration, Master 4 years
- Economics, Master 4 years
- Business Administration, Master 4 years
