Conditions of participation

11. **Eligibility:**

Participation in tendering is open on equal terms to natural and legal persons participating either individually or in a grouping (consortium) of tenderers which are established in 1 of the Member States of the European Union, ACP States or in a country or territory authorised by the ACP-EC Partnership Agreement under which the contract is financed (see also heading 29 below). Participation is also open to international organisations.

12. **Candidature:**

All eligible natural and legal persons (as per item 11 above) or groupings of such persons (consortia) may apply. A consortium may be a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure. All members of a consortium (i.e. the leader and all other members) are jointly and severally liable to the contracting authority.

The participation of an ineligible natural or legal person (as per item 11) will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

13. **Number of applications:**

No more than 1 application can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting an application). In the event that a natural or legal person submits more than 1 application, all applications in which that person has participated will be excluded.

14. **Shortlist alliances prohibited:**

Any tenders received from tenderers having a different composition than the ones on the application forms will be excluded from this restricted tender procedure, unless prior approval from the contracting authority has been obtained — see PRAG 2.4.3. Shortlisted candidates may not form alliances or subcontract to each other for the contract in question.

15. **Grounds for exclusion:**

As part of the application form, candidates must submit a signed declaration, included in the standard application form, to the effect that they are not in any of the exclusion situations listed in Section 2.3.3 of the Practical Guide to contract procedures for EU external actions.

16. **Subcontracting:**

Subcontracting is not allowed.

17. **Number of candidates to be shortlisted:**

On the basis of the applications received, at least 4 and at most 8 candidates will be invited to submit detailed tenders for this contract. If the number of eligible candidates meeting the selection criteria is less than the minimum of 4, the contracting authority may invite the candidates who satisfy the criteria to submit a tender.

Provisional timetable

18. **Provisional date of invitation to tender:**
7.5.2011.
19. **Provisional commencement date of the contract:**
1.7.2011.
20. **Initial period of implementation of tasks:**
Duration in months: 48 (from the award of the contract).

Selection and award criteria

21. **Selection criteria:**
Same criteria for legal and natural person.
The following selection criteria will be applied to candidates. In the case of applications submitted by a consortium, these selection criteria will be applied to the consortium as a whole.
- 1) Economic and financial capacity of candidate:
in case of applicant being a public body equivalent information should be provided:
1. the candidate's average annual turnover for the past 3 years, including the current financial year, must be 1 200 000 EUR or more;
 2. cash and cash equivalents at the beginning and end of the financial year must be in surplus, overall.
- 2) Professional capacity of candidate:
1. during each of the 3 financial years in question, there must have been a total of at least 2 permanent staff members at the headquarters, with higher education diplomas in fields relevant to this contract (computerisation of State departments);
 2. during each of the 3 financial years in question, there must have been a total of at least 7 permanent staff members at the headquarters.
- 3) Technical capacity of candidate:
1. the candidate must, in the past 4 years, have run at least 2 long-term (minimum 1 year) technical assistance contracts in fields involving computerisation of State departments, which are relevant to this contract;
 2. the candidate must, in the past 4 years, have conducted at least 4 studies (identification, evaluation, etc.) in fields involving computerisation of State departments, which are relevant to this contract.
- An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may not be considered appropriate by the contracting authority are when the tenderer relies in majority on the capacities of other entities or when he relies on key criteria. If the candidate relies on other entities it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal.
- Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator. Furthermore, the data for these third entities for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the contracting authority.
- If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of the applications of these candidates must be re-examined to identify the 8 best applications for the tender procedure.

The only factors which will be taken into consideration during this re-examination are:

— the number of long-term technical assistance contracts in fields relevant to this contract from 2006 to 2010 inclusive.

22. **Award criterion:**
Best value for money.
