

Horticulture & Livestock Trade Mission Rwanda | 22-26 November 2015

Organisers: NABC, SPARK | supported by: Embassy of the Netherlands in Kigali, RDB, PSF, AgriProFocus

Location: Kigali, Rwanda

Focus: Horticulture & Livestock

Fee*: EUR 650,- for NABC members | EUR 750,- for non-members

**includes: collective lunches, dinners and local transport (by road)*

From 22-26 November, NABC and SPARK organize a trade mission to Kigali, Rwanda. This trade mission, focused on the horticulture & livestock sectors, enables you to find out what business opportunities Rwanda has to offer your company. More concretely, through a diverse and tailor-made program including field visits, government meetings, business-to-business meetings, a networking reception and more, your company will be introduced to ongoing and upcoming projects and potential business partners in Rwanda.

The program of the mission in Rwanda includes:

- One-on-one meetings with selected potential business partners
- Field visits to large farms, input-suppliers & processors
- Sector-specific stakeholder meeting
- Meetings with government authorities
- Networking reception
- For Horticulture: AgriProFocus conference 'Promoting Innovation & Regional Trade' conference for East-Africa' + matchmaking with participating companies

Rwanda's domestic demand for milk and meat as well as horticulture produce such as fruit & vegetables is expected to rise as the population increases and becomes more urbanized. Besides ample opportunities in Rwanda, the country also has great potential to export its products to neighboring countries such as DRC, Congo Brazzaville and Gabon. This creates a large demand for knowledge and products enabling high(er) productivity within the agriculture sector, and provides business opportunities for Dutch companies.
